

Every December, we give you our roundup of the hottest products and services that came across our desks from manufacturers and dealers in the church market. This issue should be your church's "wish list" going into the new year, as you continue to evaluate and select products to help you operate your worship facility more effectively and efficiently.

In every issue through the year, every single product or service we cover in the magazine is there because we think it's something that you will find useful, so we're excited about each and every one in all of our issues. Our sole mission is to help you make purchasing decisions, so we're all about products, all the time. This list reflects the "best of the best."

Churches by Daniels

Churches by Daniels has specialized in helping pastors and churches with their design-build construction projects since 1980. Their team works tirelessly to make sure that you have the best facility to better help you reach your community. Design, ground up, remodel or renovation, they are here to serve you.
